REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: After a review of the prior art of record and Applicant's arguments, it is believed that the present invention is novel and non-obvious wherein no reference discloses a hose comprising an inner barrier layer, a radially outer intermediate layer bonded directly onto the inner barrier layer, a reinforcing layer and a cover layer, wherein the barrier layer is formed of two different resin materials with at least one of the resin layers being a vinyl resin, as recited in claim 1. Applicant points out that adding a reinforcing layer to the Brunnhofer would not be obvious wherein doing so would destroy the bonding of the hose layers since Brunnhofer discloses mutual bonding of the layers. The **Yoshikawa et al.** reference discloses similar structure, but discloses a metal foil (2) and not a second resin layer to make up the barrier layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Patrick F. Brinson** whose telephone number is (571) 272-4897. The examiner can normally be reached M on M-F 7:30-3:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, **Michael Y. Mar** can be reached on (571) 272-4906. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
